Usage Precautions

<p>Recommended Temperature Profile</p>	<p>[Conditions] 1. Heating : 260°C± 5°C , 30 sec. 2. Preheating : 150 to 180°C , 60 to 120 sec. 3. Number of Reflow Cycles : 3 cycles Max.</p> <p>*Measurement is conducted at the contact lead part. Soldering results may change depending on conditions such as solder paste type, manufacturer, PCB size, and other soldering materials. Please determine all mounting conditions before use. *This temperature profile is a recommended value.</p>
<p>Cautions</p>	<ol style="list-style-type: none"> 1. Forcing the connector out might cause damage. If challenging to remove, gently press down once and then release the lock. 2. Always disconnect the power before reseating the connector. 3. Avoid touching the terminal area when the power is active, as it's hazardous. 4. For harnessing guidelines, please consult a Hirose representative.
