

## DF51K Series

# 2mm Pitch, Center Lock, Wire-to-Board Connector (UL/C-UL Listed)

Positive-Lock

P=2.0 mm

Wide Variation

Product Page  
<https://www.hirose.com/en/product/series/DF51K>

## Features

### 1. Wide-Ranging Options to Meet Diverse Customer Needs

- THT/SMT, Straight/Right Angle, Single/Double row, Gold/Tin Plating, etc.

### 2. Center Lock Design for High-Density Mounting and Easy Operation

Center lock lever with various widths enables user-friendly operation.

Extra spacing not required

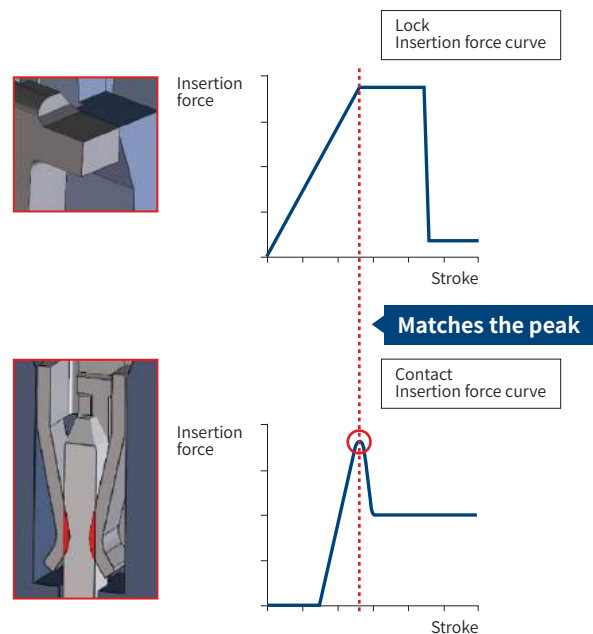

High density mounting contributes to space saving.

### 3. Secure Mating with Clear Tactile Click

Prevents incomplete insertion, featuring a design where the lock and contact insertion force peaks align to produce a noticeable click.

### 4. High contact reliability with long effective mating length and 2-point contact design

A clear tactile click prevents incomplete insertion

## 5. Prevents Incorrect Mating

Visual and mechanical polarized design prevents reverse and incorrect mating between different numbers of positions.

## 6. Suitable for Potting

Designed to support potting up to 3mm (applicable only to the straight THT header).

## 7. Compatible Crimping Tools

Utilizes the same crimp tools as the DF11 Series, accommodating a wide cable range of 22 to 30 AWG.

(Note : The crimp contacts of DF51K and DF11 are not interchangeable.)

## 8. UL, C-UL certified

- THT & SMT Type

## Applications

Office equipment, Industrial machinery, Industrial robots, Amusement equipment, Medical equipment, etc.

## Product Specifications

Rated Current (Note 1)	THT & SMT Type	Single-row	No. of Pos.	22 AWG	24 AWG	26 AWG	28 AWG	30 AWG	Operating Temperature	-55 to +105° C (Note 2)
			2	3A	2.5A	2A	1A	0.5A	Operating Humidity Range	20 to 80% (Note 3)
		3-6	2A	2A	4				3A	2.5A
		6-30	2A	2A		1.5A				
Rated Voltage	THT Type	Single-row	Straight			Right Angle			Storage Humidity Range	40 to 70% (Note 4)
			250V AC/DC							
		Double-row	Straight			Right Angle				
	SMT Type	Single-row	Straight			Right Angle				
			250V AC/DC			250V AC/DC				
		Double-row	250V AC/DC			100V AC/DC				

UL/C-UL Safety Standard Approved Specification (THT & SMT Type)	Rated Current (Note 1)	22 AWG	24 to 28 AWG	30 AWG
		2A	1A	0.5A
	Rated Voltage	30V AC/DC		

UL/C-UL File No. and Recognition No. E132750

Items	Specifications	Conditions
Insulation Resistance	No less than 1,000MΩ	Measured at 500V DC
Withstanding Voltage	No insulation breakdown	650V AC is applied for 1 minute (*Double-row Right Angle SMT Header : 500V AC for 1min.)
Contact Resistance	No more than 30mΩ	Measured at 1mA and no higher than 20mV
Mating Durability	Contact resistance : no more than 30mΩ	Tin plated : 30 mating cycles, Gold plated : 50 mating cycles
Vibration Resistance	No electrical discontinuity of 1μs or greater	Frequency : 10 to 55Hz, half amplitude 0.75mm, 10 times in each of the 3 directions
Shock Resistance	No electrical discontinuity of 1μs or greater	Acceleration velocity : 490m/s <sup>2</sup> for 11ms, half-sine wave in 3 directions, 3 times for each directions
Moisture Resistance (Steady State)	Contact resistance : no more than 30mΩ Insulation resistance : no less than 500MΩ	Temperature : 40±2°C, humidity : 90 to 95%, left as it is for 96 hours
Temperature Cycle	Contact resistance : no more than 30mΩ Insulation resistance : no less than 1,000MΩ	-55°C : 30 minutes → +105°C : 30 minutes, 5 cycles

Note 1 : The rated current varies based on the cable size used.

Note 2 : Includes temperature rise caused by current flow.

Note 3 : Use without condensation on parts.

Note 4 : The storage condition refers to long-term storage of the product on the shelf before assembly.

Please use the operating temperature for temporary storage such as pre-assembly and during shipping.

## Materials / Finish

Product	Component	Material	Color / Finish	UL Regulation
THT Header	Insulator	Straight : PA66 Right Angle : PBT (Glass-reinforced)	Black	UL94V-0
	Contact	Brass	Tin Plated or Gold Plated	-
SMT Header	Insulator	LCP	Black	UL94V-0
	Contact	Brass	Tin Plated or Gold Plated	-
	Retention Tab	Brass	Tin Plated	-
Crimp Socket	Insulator	PBT (Glass-reinforced)	Black	UL94V-0
Socket Contact	Contact	Phosphor Bronze	Tin Plated or Gold Plated	-

## Product Number Structure

Refer to the chart below when determining the product specifications from the product number.  
Please select from the product numbers listed in this catalog when placing orders.

### Connector

**DF51K** **B** - **#** **P** - **2** **DSA**

①      ②      ③   ④      ⑤      ⑥

### Crimp Contact

Note 1 : Please conduct crimping work according to the "Crimp Quality Standard" and "Crimp Condition Table".

Note 2 : Any problems that occur from using tools other than those specified by Hirose are not covered by warranty.

Note 3 : Please contact Hirose for information about hand tooling.

## Precautions for use

- The connector could be damaged if pulled out forcibly. When it is hard to pull out, push it in slightly first and then depress the lock and un-mate.  
Please refer to "DF51K mating and unmating Procedure Document (DOC180208-010)" for points in handling regarding mating operations.
- When mating a crimped contact into a socket, please refrain from inserting it diagonally in order to maintain performance reliability. Please refer to the "Harness procedure manual (DOC180330-002)" for points in harness operations.

## Operating Environment

Please contact a Hirose representative if you are designing this connector into environmental conditions where high and low temperatures are repeated.

## While taking into consideration

Specifications mentioned in this catalog are reference values.

When considering to order or use this product, please review the Drawing and Product Specifications sheets.

Use an appropriate cable when using the connector in combination with cables.

If considering usage of a non-specified cable, please contact your sales representative.

If assembly process is done by jigs & tools which are not identified by Hirose, the warranty of the product may be affected.

If considering usage for below mentioned applications, please contact your sales representative.

In cases where the application will demand a high level of reliability, such as automotive, medical instruments, public infrastructure, aerospace/ defense etc. Hirose must review before assurance of reliability can be given.
