

2mm Pitch, Positive lock, Wire-to Board Connector (UL, C-UL Listed)

DF51K Series

■ Features

1. Positive lock provides clear tactile click and secures reliable connection

The locking mechanism delivers a clear tactile click, which prevents incomplete mating. (Fig.1)

2. Wide variation

Each of Straight / Right angle equipped with single row and dual row for flexible design. Gold and Tin plating options support various application needs.

3. Easy extraction workability

The width of the center lock lever is increased as the pin counts increase for easy extraction. Additionally, the center lock design does not need space to un-mate the connector, which provides high density mounting. (Fig.2)

4. Prevents incorrect mating

Visually and mechanically polarized features prevent reverse mating and incorrect mating between different number of positions. (Fig.3)

5. Suitable for potting

Capable of being potted up to 3mm. (Fig.3)

6. Use common crimping tools with DF11 Series

Wide applicable cable range : 22 to 30 AWG.
(However, the crimp contact of DF51K and DF11 are not compatible each other.)

7. UL, C-UL certified

■ Applications

Office Equipment, Industrial Machinery,
Industrial robots, Amusement equipment,
Medical equipment.

◆ Secure mating with clear tactile click

Matching peak insertion forces provides a clear click sound and tactile click

Fig.1

Center lock width gets wider as the pin count increases.

High workability and high density mounting due to center lock design

■ Precautions for use

1. The connector could be damaged if it is pulled out forcibly. When it is hard to pull out, push it in slightly first and then depress the lock and un-mate.
Please refer to "DF51K mating and unmating Procedure Document (DOC180208-010)" for points in handling regarding mating operations.
2. When fitting a crimped contact into a socket, please refrain from oblique insertion for keeping performance reliability.
Please refer to "Harness procedure manual (DOC180330-002)" for points in harness operations.

■ Operating Environment

Please contact us if you are designing this connector into environmental conditions where high and low temperatures are repeated.
