

Card Edge Type Ribbon Cable Connectors

HIF5 Series

■ Features

1. Product Variation

The area to install the connector body is classified into three types according to full hole mounting area, semi-mounting area and non-mounting area.

2. Mounting Density Enhancement

This connector is designed so that the ribbon cable can turn back within the connector molding range. The connector can be installed without coming out of the insulator.

3. Applicable Cable

The applicable cable is a <UL2651>28 AWG flat cable (7pcs./0.127mm, jacket dia. : 0.8 to 1.0mm).
