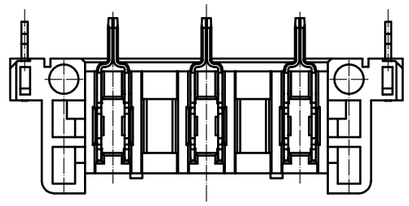
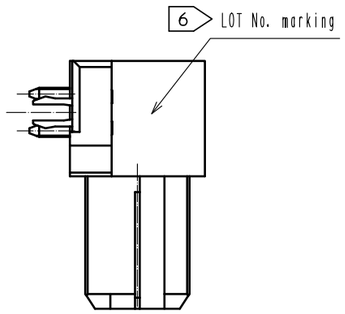
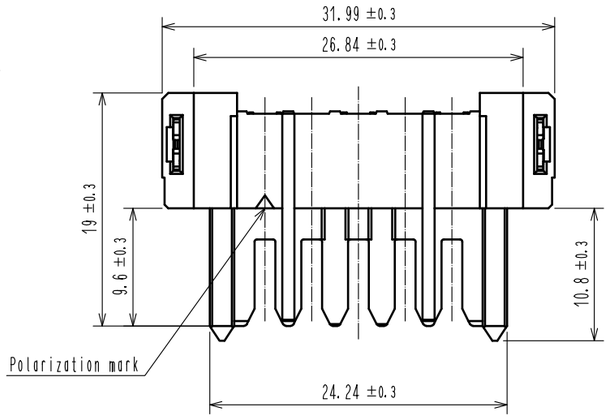
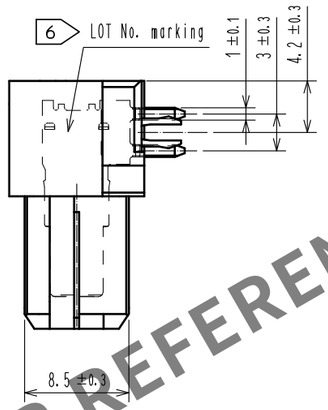
In case of consideration for using Automotive equipment / device which demand high reliability, kindly contact our sales window correspondents.

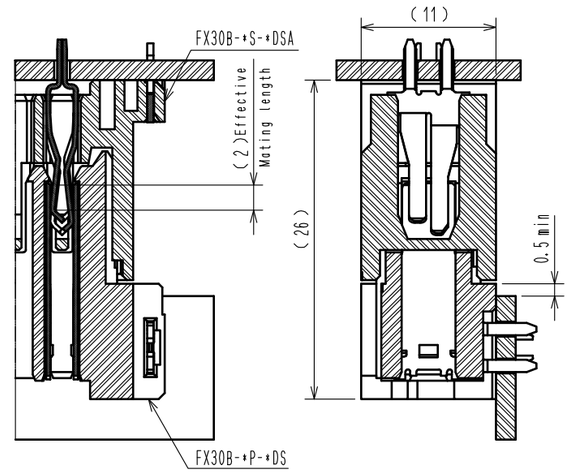


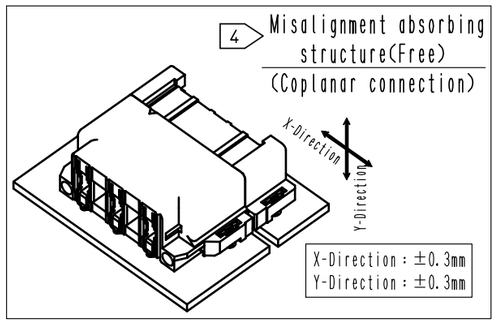




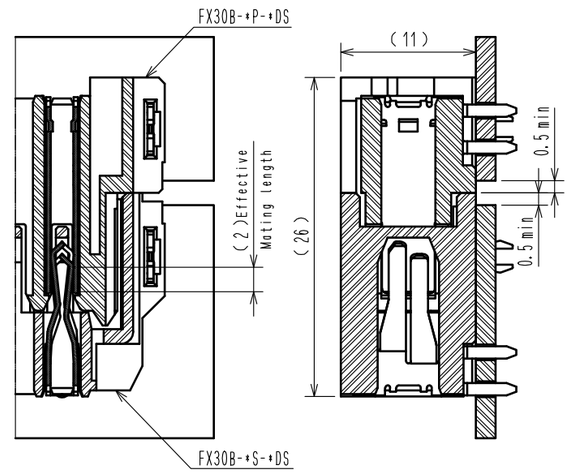


Cross section of mating(Free)
Vertical connection





Cross section of mating(Free)
Coplanar connection



Note
1. This product is packaged in tray.(20pcs/tray)
2. Blemish and hit mark can be occurred through out the manufacturing process whitch dosen't affect quality level.
   Also, black spot could be observed on the surface of housing.
3. For the contact No., adjacent two pairs of leads placed back-to-back (4 leads in total) Compose one line.
4. Misalignment absorbing range:±0.3mm max.
5. The dimension in parentheses are for references.
6. Lot No. is indicated at either one of the position as shown.
7. Pay attention to the recommended PCB thickness and finished through-hole dimensions. Low retention force to PCB could induce angled mounting due to the unbalanced center Of the connector.
