#### 1. Scope

This document specifies the cable assembly procedures from crimping the crimp contact to the cable until inserting the crimped contact to the socket for DF19 Series.

### 2. Connector

■ Socket Connector

 $\underline{DF19} \# - \underline{*} \underline{S} - \underline{1} \underline{C}$ 

 $\begin{array}{c|c} \overline{\mathbf{0}} & \overline{\mathbf{0}} & \overline{\mathbf{0}} & \overline{\mathbf{0}} \\ \hline \mathbf{0} & \mathbf{0} & \overline{\mathbf{0}} & \mathbf{0} \\ \hline \end{array}$ 

1 Name: DF19

2 Type of housing

Blank: No grounding plate

G: With grounding plate

3 Number of contacts:8,14,20,30

4 Connector type

S:Socket

**6** Contact pitch: 1 mm

**6** Type of housing

C: Crimp case

■ Crimp Contact

<u>DF19A - 2830 SCF A (\*\*)</u>

0 9 8 4

Applicable wire size

2830: AWG #28 to 30

3032: AWG #30 to 32

2 Contact & packaging type

SCF: Socket crimp contact, reel

Plating

A: Gold

Packaging specification

Blank : 10,000 pcs/reel (41) : 20,000pcs/reel

## 3. Cable Assembly Procedure

#### 3.1. Cable Stripping

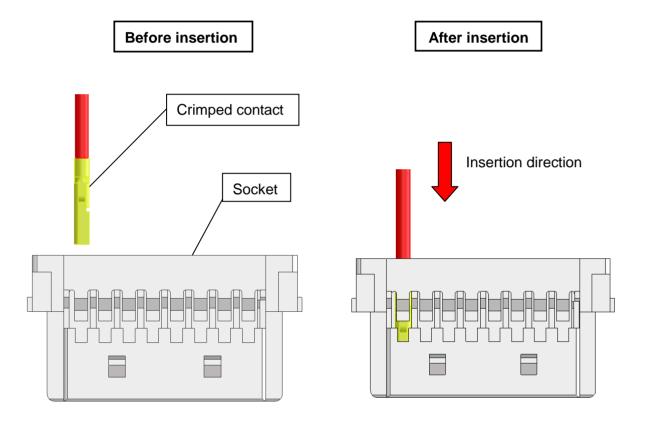

Based on the Crimp Quality Standard (ETAD-H0945), strip the cable jacket. Make sure that there is no damage on the cable conductor.

# 3.2. Crimping Process

Crimp the crimp contact by using the applicator (AP105-DF19S(\*\*)). Confirm that the crimp height and configuration meet the crimp condition and Crimp Quality Standard (ETAD-H0945).

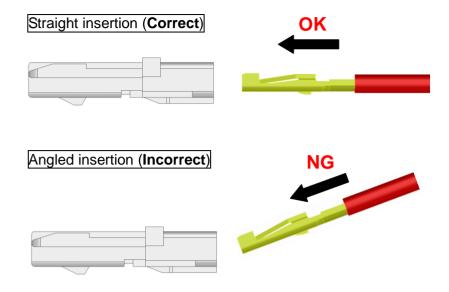

### 3.3. Crimped Contact Insertion to Crimp Case

Hold the cable with crimped contact, and insert it to each contact cavity of the socket. (Insertion direction is as shown below.)

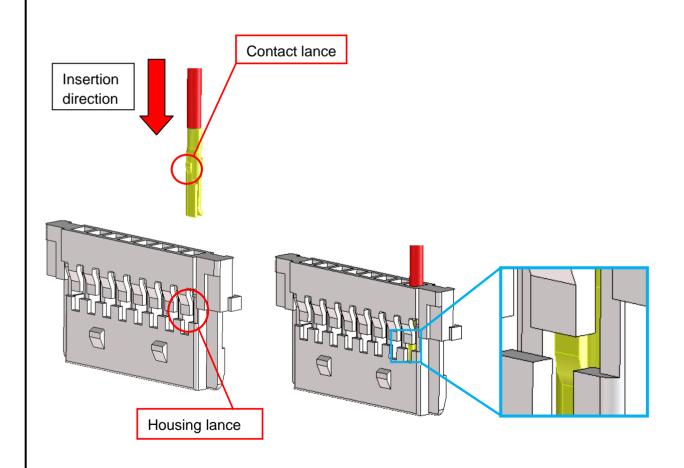

Δ

-Do not insert the crimped contact at an angle to the socket in order to maintain a performance reliability.

-Make sure that the contact lance is caught in the housing lance of the socket.

#### NOTE: Repairing the crimp contact

If removing the inserted crimped contact, lift up the housing lance with DF-C-PO(B) or some pointed needle, and pull out the cable simultaneously. This repair operation could make the lance strength lower. Therefore, do not reuse the repaired socket, and replace it to new one.
