APPLICABLE OUTER CONDUTOR CRIMPING TOOL : HT303/UM,MSS-T-1 (1.5HOLE)

Technical drawing of a connector assembly. The main view is a cross-section showing a central pin (1) with a diameter of $\phi 1.8 \pm 0.1$ and a length of 16 ± 0.3 . The pin is surrounded by a sleeve (2) with a diameter of $\phi 3.8 \pm 0.2$. The sleeve is crimped onto a cable (3) with a diameter of $\phi 4.8 \pm 0.2$. The cable has a central conductor (4) with a diameter of $\phi 1.5$ and an outer jacket (5). A heat shrink tubing (7) is attached to the cable. A label (6) is attached to the sleeve. The drawing includes a detail view of the heat shrink tubing (7) with a diameter of $\phi 4$ and a length of 15.
